Alexander V. Frolov,
P.O. Box 37,
St. Petersburg,
193024 RUSSIA.

Dear Sir,

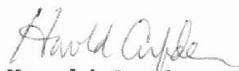

You wrote to me on May 5th revealing your interest in ideas for 'free energy' and gravity.

As you will know I have my own ideas and my problem is in finding the time and resource to work on those. I am a retired individual working on this 'free energy' project as a hobby and what I have to say and share with others will be published at my own expense and mentioned, I hope, in newsletters such as are issued by Don Kelly and Hal Fox.

I send you with my compliments a copy of a book I wrote a long time ago together with a note which highlights the parts of the book that now look relevant to 'free energy' or what I see as 'aether energy'.

I look forward to hearing of your work and progress in Russia via the New Energy Newsletter and wish you well.

Sincerely,

Harold Aspden
