Dear Alexander Frolov

We received your letter and we thank you for it. Science is an amazing field for human beings. In former times science was considered non compatible with the dogma by the established churches. In the meantime they learned after all to live together with science. But now scientists erected a barrier between the spiritual truth and their scientific dogma. That's wrong in the same way. True science is integrated within true spirituality and for them there are no bonds. To study true spirituality means equally to study universal science. The physical and the chemical and the biological laws represents the Word of the Creator according to the beginning of St.Johns gospel:"When all the things began, the Word already was. The Word dwelt with God, and what God was, the Word was." It does not matter which word you are studying because every Word is of God. But the nearest Word is my Word, the Law of God, spoken to me by the Creator in times I have lost memory for it.

He who wants to study the deep Divine Wisdom must free himself from any erroneous conception and from all earthly vices, through acknowledgement of God's Living Law as highest value, and its most earnest applications to himself. That's what everybody can study, should study and such a man will be taught by Wisdom itself and will understand everything in the due time, according to the words in the gospel of St.Matthew:"Set your mind on God's kingdom and his justice before everything else, and all the rest will come to you as well."

This is the way of Methernitha and all our research work results from this source. Everybody doing the same will also be taught by this one and only true source, likewise you in the degree you need it. We wish you God's blessings for it. Please feel free to contact us again if there are further questions.

Sincerely

*Francis Bernhard*

Linden, 31/12/1993

Dear Mr Frolov

Thanks for your letter and the greetings of the season. We see you are a man who likes to cogitate. You knocks at the door between matter and spirit and indeed, nowadays science already discovered an amazing knowledge of the mysterious borderland between the two. But the intellectual rails to there are a seductive way, which leads often in a dead end road.

True wisdom cannot be found by mere intellect. True wisdom can only be found by a sincere heart. What is the meaning of it? We ought to trust in the inner voice, which is the best guide in every situation of life. This voice is the mirror of the divine law. It leads us to practise the good. Practice leads us to experience. Experience leads us to knowledge. Knowledge takes roots in a fine heart and represents true wisdom.

That's our way to wisdom. That's the way which Jesus taught. And this way leads you more and more in spheres, where mere intellect never can reach. Live according the very ancient spiritual laws is the way to deeprooted knowledge. This is our answer today to your questions, because truth in itself cannot be transmitted by verbal communication, but only the way leading to it.

So much for this time.

Sincerely

Dear Mr Frolov

We thank you for your letter of february and we are glad to see and to feel, that you are a sincere man and researcher. Every man has its way with its possibilities in life, and if we perceive and grasp our chance, then the perspectives become more and more interesting and the horizon wider and wider. Between St.Petersburg and Linden is a great local distance, but I feel near to you. If only you put your life at everytime in the hands of the Lord, your desire to know will be fulfilled in the due time.

We wish to you the blessings of the Lord on your way. Whenever some day you should have an opportunity to come in Switzerland, we would be glad to welcome you as our guest.

Sincerely

Francis Bosshard

Dear Mr Frolov

Thanks for your last letter of march. Thanks also to entrust us with your scientific work. We transmit it to Mr Rusterholz of SAFE. It is a Swiss association of free energy research work. They are editing quarterly their SAFE news with scientific publications of their topics. Maybe they will accept your work for the next edition of their news. If not they will possibly find another opportunity for your publication. Mr Rusterholz will contact you personally.

Sincerely

Dear Mr Frolov

Finally an echo to your letter of 7th april. I have to explain to you the nature of our research group a little bit nearer. All of them are members of our spiritual community and are living in the center of common life. They are working for the existencial base of the community. Their research work is a part of their leisure and is orientated to our spiritual goals. Most of them are scientific unlearned people approaching the physical problems from the side of their spiritual understanding of nature and their laws. Their terminology is likewise alternative as their scientific approach. They would probably not understand your ideas in writing communication.

For this reason I have brought you in contact with Mr Rusterholz. He can help you to find communication partners according your scientific level. I hope that it happened already.

If you should find an opportunity to come in Switzerland one day I would gladly bring you in contact with our research group for a verbal communication which is completely different to letters, o.k.?

Thanks for your understanding. We are at your disposition at every time for communication on a spiritual level.

Sincerely

Linden 24 / 12 / 1999

Dear Mr. Frolov,

In reference to your e-mail of 20/11/99 we call back to your mind our former correspondence. We are enclosing with this letter our last letter to you of 23/6/94 which is still valid to be an answer to your actual e-mail.

The research group is not willing to give more explanations than just publicly known. The fruits of the research work are not to be exploited economically. Sorry we cannot give our assent to your request.

Sincerely
